

PROTECT YOUR COMPONENTS WITH ZINCBRITE

Zincbrite coating protects your galvanized surface from rust and its advanced formula provides mechanical toughness to the equipment

BENEFITS

- Long-term cathodic corrosion protection
- Colour to match hot galvanized
- Restores aesthetic look of galvanized surfaces
- Excellent mechanical toughness

APPLICATIONS

- All Galvanized steel products
- Coating for damaged, hot-dipped & other zinc coated galvanised structures.
- Windmill towers, High Mast Lighting, Transformer tanks
- Fences & gates, Guard rails, Welding seams, Pipes and fittings
- Heating and air conditioning equipment
